AI (Artificial Intelligence)

AI, which stands for Artificial Intelligence, is a field of computer science and technology that focuses on creating systems and machines capable of performing tasks that typically require human intelligence. These tasks include problem-solving, learning from experience, understanding natural language, recognizing patterns, and making decisions.

AI can be categorized into two main types:

1. **Narrow AI (Weak AI)**
2. **General AI (Strong AI)**

Description Of Both AI

1. Narrow AI or Weak AI: This type of AI is designed for specific tasks and has a limited scope of abilities. It excels at performing predefined tasks, such as speech recognition, image classification, and playing board games like chess or Go. Narrow AI systems do not possess general intelligence or consciousness.

2. General AI or Strong AI: General AI refers to machines or systems that have human-like intelligence and can perform a wide range of tasks that typically require human intelligence. This level of AI is still largely theoretical and has not been achieved to date. It would require the ability to understand, learn, and adapt to various tasks and environments, like how humans do.

AI technologies include machine learning, deep learning, natural language processing, computer vision, and robotics. These technologies enable AI systems to analyze large datasets, make predictions, recognize patterns, and interact with humans in a more human-like manner. AI has numerous real-world applications, such as in virtual assistants (like Siri and Alexa), self-driving cars, medical diagnosis, fraud detection, and more.

Limitations of AI

Artificial Intelligence (AI) has made significant advancements, but it also has several limitations and challenges that researchers and developers are actively working to address. Some of the key limitations of AI include:

Limitations of AI

Lack of Common Sense and Understanding

Data Dependence

Lack of Creativity and Innovation

Limited Contextual Understanding

Ethical and Bias Concerns

Artificial Intelligence In Trading

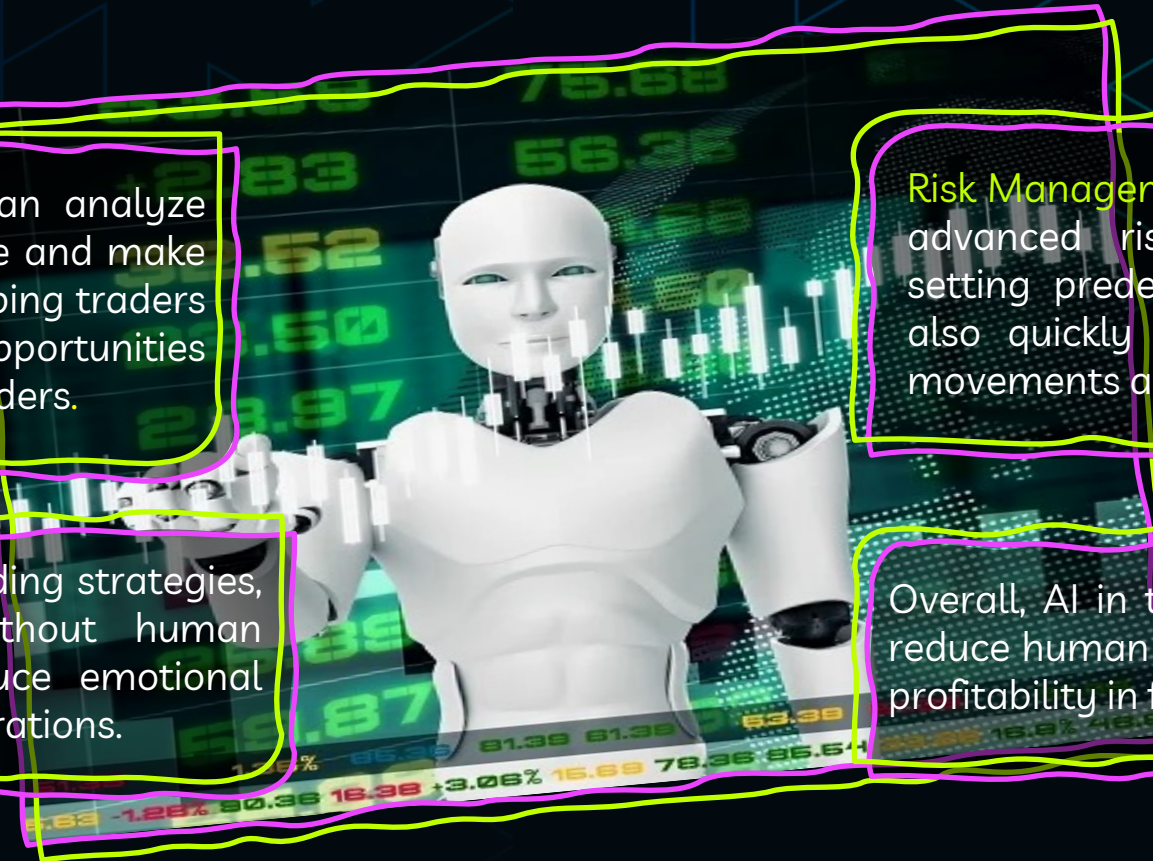

AI (Artificial Intelligence) has made significant inroads into the field of trading, transforming the way financial markets operate. Here are the top 4 key points about AI in trading

Improved Decision Making: AI can analyze vast amounts of data in real-time and make data-driven trading decisions, helping traders identify trends, patterns, and opportunities that may be missed by human traders.

Automation: AI can automate trading strategies, allowing for 24/7 trading without human intervention. This can help reduce emotional biases and streamline trading operations.

Risk Management: AI can help in managing advanced risk assessment models and setting predefined risk parameters. It can also quickly react to unexpected market movements and execute trades accordingly.

Overall, AI in trading can enhance efficiency, reduce human errors, and potentially increase profitability in financial markets.

What is Balixa

Balixa is a hybrid automated AI management system which controlled by highly qualified and experienced team. Balixa System invented by Align Bridge Corporation which founders are **Enrique Rivera , Preston Bennet and Lissandro Norman.**

BALIXA SYSTEM WORKS

BALIXA stands as a cutting-edge hybrid automated AI management system, meticulously overseen by a team of highly qualified and seasoned professionals. Going beyond the capabilities of traditional non-emotion Artificial Intelligence, BALIXA introduces a unique approach. In instances where precision alone may fall short, the system seamlessly integrates humane emotion, ensuring decisions are made with a nuanced understanding of complex situations. This innovative fusion of AI and human insight sets BALIXA apart, offering a dynamic and adaptable solution to decision-making challenges. The experienced team at the helm brings a wealth of expertise, guiding BALIXA towards optimal outcomes in diverse scenarios. As the next frontier in AI management, BALIXA represents the harmonious collaboration of advanced technology and human wisdom. Join BALIXA, where intelligent decisions are powered by the perfect synergy of artificial and humane intelligence.

Align Bridge Corporation

Align Bridge Corporation is an organization which founder are AI technology expert **Enrique Rivera**, Venture Capitalist **Lissandro Norman** and Financial Market Expert and crypto analysts **Preston Bennet**.

Balixa.io is the brainchild of Align Bridge Corporation.

Balixa.io is the brainchild of Align Bridge Corporation. The core mission of Align Bridge is to develop AI management systems and solutions that facilitate individual and organizational growth. Their approach involves building ecosystems of applications, ensuring clients can achieve their desired goals with the support of innovative AI technology.

Align Bridge Projects

Developed

Align Bridge Build ecosystems of Applications and research to help clients and organizations better living in new era of life .

 **Align Bridge Finance**
fund management and venture capitalist organization

 **Balixa Ai**
new generation artificial intelligence hybrid trading management system

 **Balixa.io**
A Community platform that people can earn a handsome financial amount and live a luxurious lifestyle.

Under Developing

Balixa Chain
Developing Crypto currency platform and develop new generation block chain technology

Strile
Developing peer to peer instant payment system

Arinus
new generation robotic technology to easier human effort on their daily life.

Up-coming

Align Exchange
A powerful decentralized crypto exchange that provide Automated Marketplace to clients.

Align Quantum Research
new generation quantum technology research to get energy supply from outer space.

Balixa Fund
Crypto Banking Management system to balixa chain user

BALIXA

new generation artificial intelligence

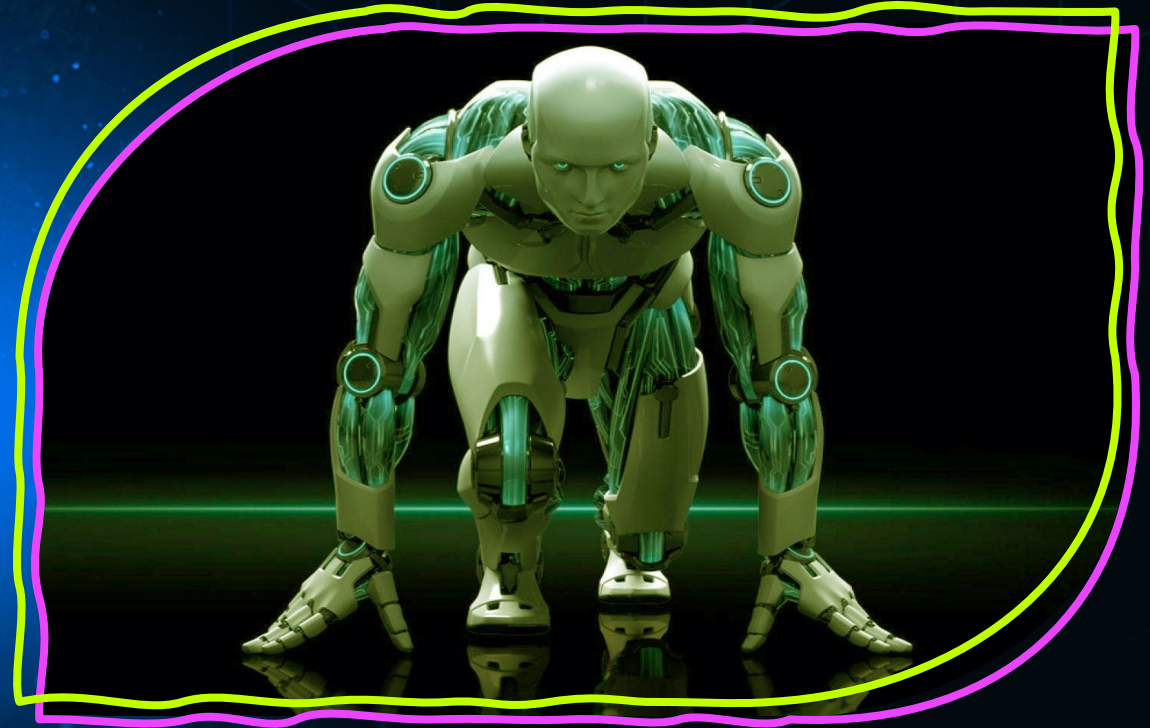

hybrid trading
management system

1. Forex Trading
2. **Cryptocurrency Trading**
3. Stock Trading
4. **Commodity Trading**
5. Options Trading
6. **Algorithmic Trading**
7. Futures Trading and +

Balixa System Manage

Get Ready To Enter Balixa.io

A community platform where people can earn a handsome financial amount and live a luxurious lifestyle by referring balixa trade management system

How To Enter balixa.io

You can enter **BALIXA** decentralized BEP 20 smart contract system with a minimal amount of **0.1BNB** only. Required to open **balixa.io** with **referral link in DAPP** platform of your BSC network supported web3 wallet like **TRUST WALLET METAMASK, COINBASE** and many more.

START WITH
0.1 BNB ONLY

Supported DAPP Wallet Platform

METAMASK Trust Wallet coinbase

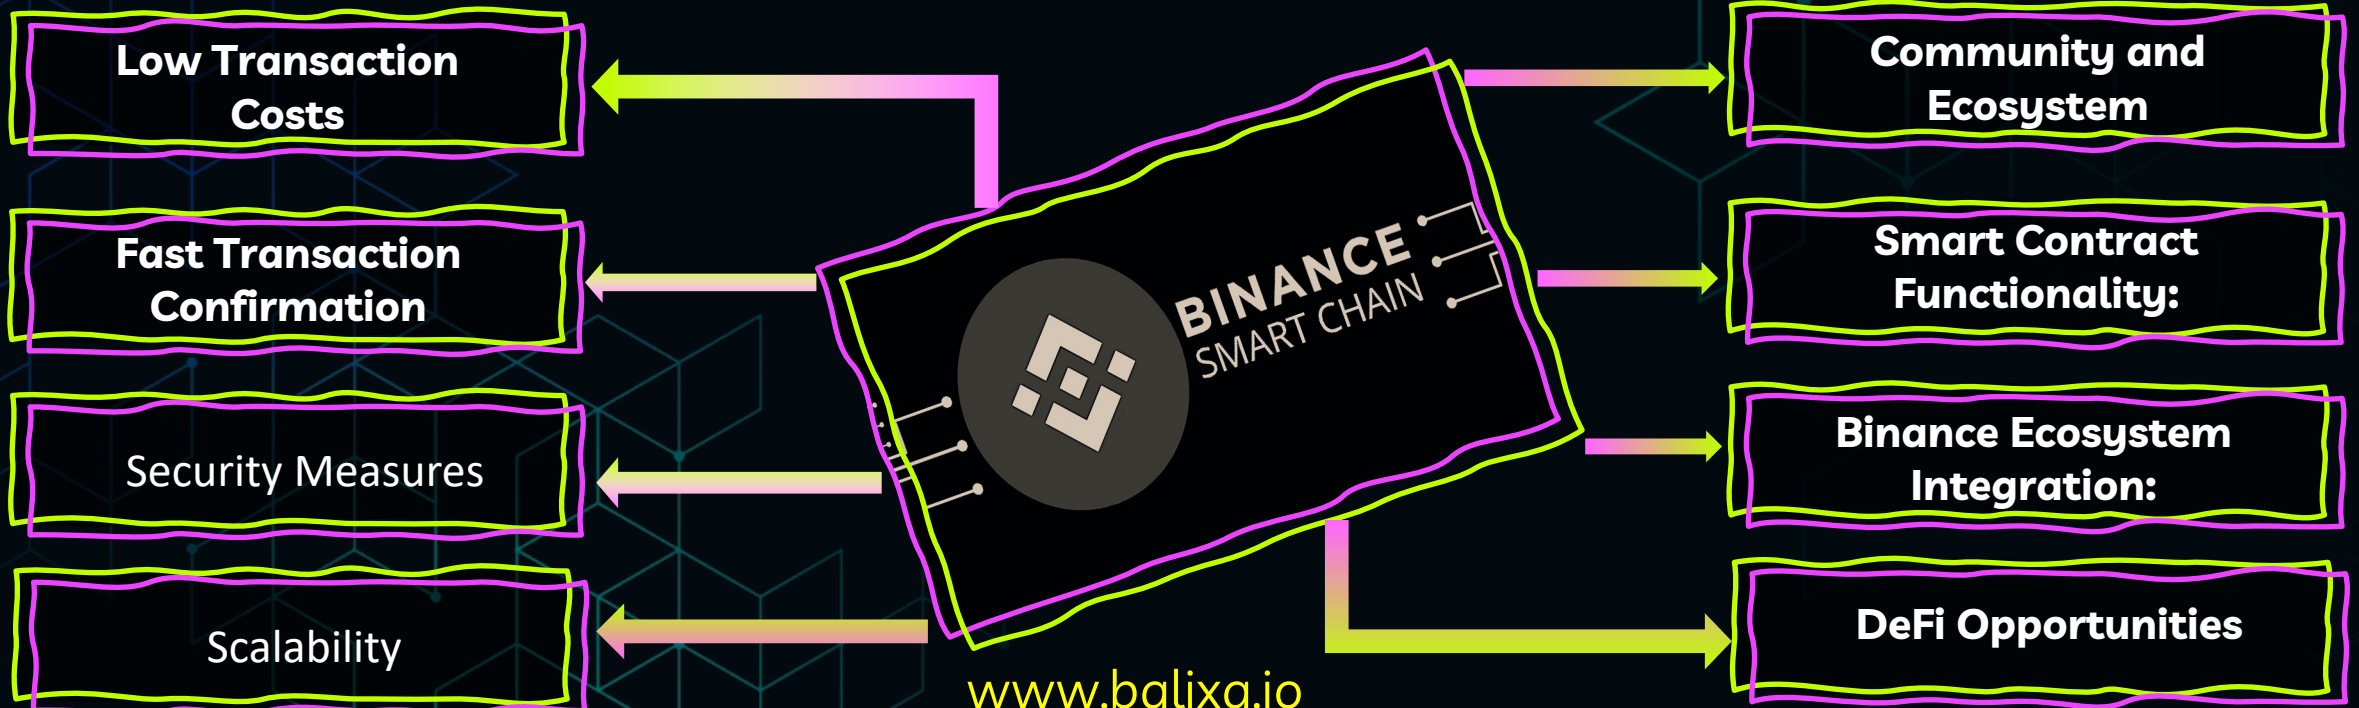

and more..

www.balixa.io

Why BEP-20

Choosing BEP-20 tokens on the Binance Smart Chain (BSC) can be advantageous for various reasons

Profits starts with [balixa.io](https://www.balixa.io)

As you know its a community platform that people can earn a handsome financial amount and live a luxurious lifestyle by referring balixa trade management AI system. There are various type of profits you can get in this platform

1. **BALIXA TRADE PROFIT**
2. HYBRID TRADE PROFIT
3. **HYBRID LEVEL PROFIT**
4. TEAM MATRIX PROFIT
5. **COMMUNITY DEVELOP FUND**
6. FIXED WORKING REWARD
7. **LIFETIME ACHIEVEMENT SALARY**
8. TARGET AWARD

There are 8 type of earning criteria that you can earn from this platform

Packages

Package	BNB Amount	Treasure Box Limit
1	0.1 BNB	3x
2	0.2 BNB	3x
3	0.4 BNB	3x
4	0.8 BNB	3x
5	1.6 BNB	3x
6	3.2 BNB	3x
7	6.4 BNB	3x
8	12.8 BNB	3x
9	25.6 BNB	3x
10	51.2 BNB	3x

Package	BNB Amount	Treasure Box Limit
11	102.4 BNB	3x
12	204.8 BNB	3x
13	409.6 BNB	3x
14	819.2 BNB	3x
15	1638.4 BNB	3x
16	3276.8 BNB	3x
17	6553.6 BNB	3x
18	13107.2 BNB	3x
19	26214.4 BNB	3x
20	52428.8 BNB	3x

Maximum Earning = Package Amount x Treasure Box Limit.
Renew Will Start From Package No 2. Only Higher Package Can Be Renew.

Trade Profit

When you Enter to balixa.io or upgrade your package, your trade amount will generate profits through Balixa new generation artificial intelligence hybrid trading management system and you will get **0.5%** trade profit on your community platform everyday

Guaranteed Daily

0.5%

Balixa

Trade Profit

Hybrid Trade Profit

On every direct referrals 0.5% extra bonus will be added on daily Trade Profit. This profit is called hybrid trade profit

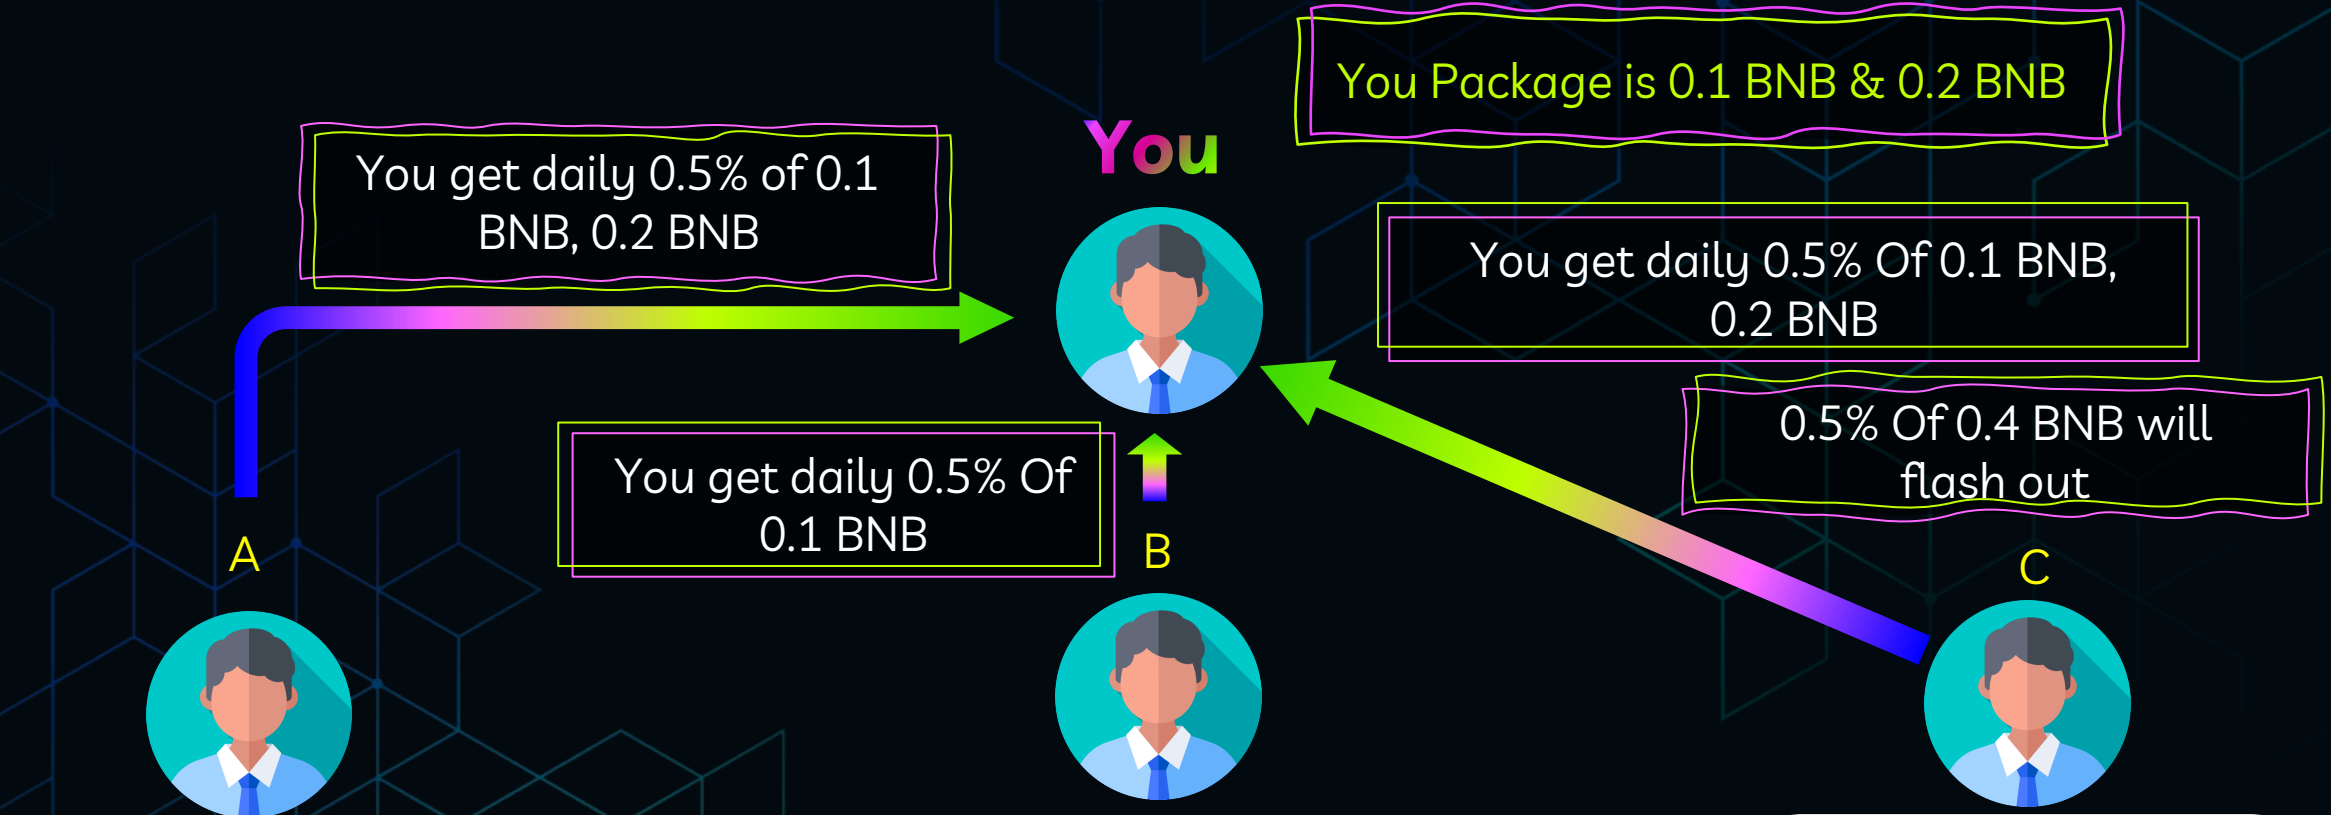

Example:

If you will refer 10 direct and they buy or upgrade package, on your same package you will get $0.5\% + 5\% = 5.5\%$ daily as trade profit. On that package if you refer 100 direct and they buy or upgrade package, on same package your daily trade profit will be $0.5\% + 50\% = 50.5\%$ daily on that package

If your community upgrade with higher package and you won't, then your hybrid trade profit will be flash out.

www.balixa.io

Hybrid Trade Profit Example

You get daily 0.5% of 0.1 BNB, 0.2 BNB

You Package is 0.1 BNB & 0.2 BNB

You get daily 0.5% Of 0.1 BNB, 0.2 BNB

You get daily 0.5% Of 0.1 BNB

0.5% Of 0.4 BNB will flash out

A's Package is 0.1 BNB, 0.2 BNB

B's Package is 0.1 BNB

C's Package is 0.1 BNB, 0.2 BNB, 0.4BNB

If your community upgrade with higher package and you won't, then your hybrid trade profit of community upgrade amount will be flash out
